AWS / AI Developments

EXTRACURRICULAR ACTIVITIES

- Member of School Scouts Team
- Member of School Volleyball Team

I'm a passionate Full Stack Software Engineer with extensive experience in website, mobile, and software development. I focus on building and improving applications that solve real-world problems and enhance user experiences, enjoying the challenge of making people's lives easier through innovative technology solutions. With a dynamic personality and a thirst for knowledge, I thrive in diverse sectors and excel in collaborative environments. I am eager to join and gain further experience in creative IT work and refine my skills in real-world situations.

WORK EXPERIENCE

Cognicdata

- Software Engineer / Project Manager - June 2025 - Present (Contract | Remote)

At Cognicdata, develop and manage Next.js web apps and NestJS REST APIs with a microservices architecture and AI integrations.

MoofLife - San Francisco, CA.

- Project Consultant - Aug 2024 - Nov 2024 (Contract | Remote)

At MoofLife, consulted on Next.js project development, focusing on SEO improvements, REST API enhancements, and training the team on software coding best practices to ensure high-quality standards.

Efto Solutions (Pvt) Ltd - Moratuwa, Sri Lanka.

- Software Engineer - Apr 2023 - Jul 2024 (Full-time | Remote)
- Software Engineer - Oct 2021 - Mar 2023 (Part-time | Remote)
- Software Engineer - Aug 2020 - Sep 2021 (Full-time | On-site)
- Associate Software Engineer - Feb 2020 - Jul 2020 (Full-time | On-site)

At Efto, I had the opportunity to work on several projects from front to end, engineering features using new technologies. The working environment at Efto was excellent, fostering both technical and personal growth.
